Baltic Sea Region  
Programme 2007-2013

Part-financed by the European Union

# Baltic Master II

## Main Objectives

- Improved on-land response capacity to oil spills
- Enhanced pollution prevention from maritime transport
- Highlight the local and regional perspective

  
**BalticMasterII**  
maritime safety across borders

[www.balticmaster.org](http://www.balticmaster.org)

## Project period

- January 2009 to January 2012

## Budget and funding

- Approx. 4 million euros

## Partners

- 30 partners
- 18 associated partners
- 48 organisations in the partnership

# Organisation

# Port Waste Management

## Background

- Initiated by three Swedish ports within Baltic Master II – Kalmar, Oskarshamn and Västervik
- Common interest among ports in Baltic Sea already known
- Two key points: Sorting of solid waste, and the reception of oily waste

  
**BalticMasterII**  
maritime safety across borders

[www.balticmaster.org](http://www.balticmaster.org)

## Objective

*Find common key for sorting of solid waste on-board ships and in ports as well as reception of oily waste*

# Port waste management

## Activities so far

- Reference list created with interested actors
- Fact sheet developed to increase awareness
- Kalmar Maritime Academy currently involved to develop draft based on MARPOL and Helcom
- Draft to be sent to members of reference list for further input
- Adoption of common key for sorting of solid waste/reception of oily waste
